Adding i>clicker Registration to your ANGEL Course

1. Login to ANGEL, click on your course, and click “Lessons” in the top ANGEL menu.

2. Under Lessons, click “Add Content”.
3. Under Add Content / More Options, click “Import from Learning Object Repository”.

4. On the next screen, click the “Search” tab. In “Search Text” enter the word “clicker” without quotes and click the Search button.

5. Click the checkbox next to “Register Your Clicker” and then click “Link to Items”.

6. A link titled “Register Your Clicker” will now appear in the Lessons section of your ANGEL course. Your students can use this link to register their clicker, and since this method pre-populates the registration form with their correct first name, last name, and student ID, it will dramatically reduce the number of erroneous clicker registrations in your course.

If you have any questions, please email clickers@psu.edu.
